FEATURED PROJECTS

Easy Travel BD | Online Ticket Solution | Team Work | [Live Link](#) | [Client Code](#) | [Server Code](#)

Tech: Tailwind CSS, Flowbite, React.js, Redux, Firebase, Express.js, Mongoose, MongoDB Atlas

- Ticket search option with specific criteria. Multiple authorization added using JWT.
- Payment integration with SSL Commerce.
- As the project leader, my responsibility is to collaborate and guide my team member. Lookup into the overall UI, and functionality, and fix errors.
- My fundamental contribution is designing the backend schema and creating route API using mongoose. The overall ticket search operation, including query search, schema design, route API, dynamic load data, calculation, etc added by me.

REBUY | Resale Online Store | [Live Link](#) | [Client Code Link](#) | [Server Code Link](#)

Tech: Tailwind CSS, Flowbite, React.js, Firebase, Node.js, Express.js, MongoDB

- Full-stack Application with mobile, tab & pc responsive project.
- Full-stack project with three different authorizations Buyer, Seller & Admin with JWT token and private routing to secure route from the unwanted users.
- Specific dashboard access for the different authorized users for better & secure UX.

WANDERLUST | Tour Booking Services | [Live Link](#) | [Client Code Link](#) | [Server Code Link](#)

Tech: Tailwind CSS, Daisy UI, React.js, Firebase, Node.js, Express.js, MongoDB

- Manual user authentication and also Google authentication was added for a quick & hassle-free sign-in for users.
- Customer review section was added to get feedback from users and to understand which tour service is suitable for the user.
